

A. Types of Burial Agreements

1. Standard: for projects that will be completed in less than 200 person-field-days within the management areas of the Salt River Pima-Maricopa Indian Community, Gila River Indian Community, and Tohono O'odham Nation.
2. General for:
 - a. Coolidge: projects on state or private land within city limits;
 - b. Court Street Cemetery: projects on state or private land within the boundary of the cemetery;
 - c. Kingman Pioneer Cemetery: projects within the boundary of the cemetery;
 - d. Mesa: projects on lands owned- or -controlled by the city and for projects initiated by the city on private land;
 - e. Phoenix: projects initiated and conducted by the city and for projects on city land;
 - f. Phoenix-Mesa Gateway Airport: projects initiated and conducted by state and private recipients of land previously held by the US Air Force at Williams Air Force Base;
 - g. Pima County: projects initiated by the county on state and private lands; and
 - h. Tempe: for projects initiated and conducted by the city and for projects on city land.
3. Project-specific: for agreements that are not identified Sections A(1) and (2).

B. Burial Agreement Applications

1. Burial Agreement Applications and supporting documentation must be submitted to the State Repatriation Office. Applications and supporting documentation may be submitted electronically. The State Repatriation Office may request hard copies at any time.
2. Standard, General, except as in Section B(3), and Project-specific Burial Agreement Applications for work on state or private land consist of:
 - a. a Burial Agreement Application; and
 - b. a work plan that includes field and lab methods for the recovery and analysis of Remains.
3. Applications for the city of Phoenix and Pima County burial agreements for work on state or private land consist of:
 1. a Burial Agreement Application;
 2. a description of the proponent's project, the archaeological response to the proponent's project, and identification of the general work plan under which the work will be conducted; and
 3. a USGS map at 1:24,000 scale of the project area(s) and site(s) to be investigated.
4. Work plans for work that is not conducted under an Arizona Antiquities Act Project-specific Permit must be submitted as hard copies after they are approved by the State Repatriation Office.
