SUMMER CAMP FOR ADULTS

May 20-23, 2019

Enjoy archaeology in air-conditioned comfort with ASM's annual Summer Camp for Adults. “Bone up” on your knowledge of animal and human skeletal remains from archaeological sites with experts from the Arizona State Museum. Together with zooarchaeologist Dr. Nicole Mathwich and bioarchaeologist Dr. James Watson, you will explore the diversity of information contained in ancient bones and how archaeologists use them to reconstruct environments and human behavior in the past. Participants will interact with specialists and materials through lectures, hands-on activities, and field trips. Plastic models of human bone will be used in this class.
